SPECIALISED PHOTOCOPIER & PRINTER TRANSPORT REMOVAL, TRANSFER & RELOCATION

An experienced printer and copier relocation service

Specialists in technical freight, Macknsons partner with the largest manufacturers and distributors of photocopiers and printers to collect, deliver and relocate copiers at customer sites in Perth CBD and throughout remote WA.

Our first-class transport services for photocopier and printer relocations see us move machines up to Kununurra and south to Esperance, with scheduled delivery runs every fortnight. We provide massive cost savings, removing the need for almost any dedicated vehicle deliveries.

Request a quote on our website and we will send you an estimate the same day.

Our copier and printer transport solutions cater for:

- Photocopiers
- Plotters
- Printers
- Fax machines
- Scanners
- Other office Multi-Function Devices (MFDs)
- Plan printers
- Large format printers / scanners

Macknsons **understand your consignment** is precious and ensure our removal team is trained in all aspects of lifting and moving copiers and printers.

From pick up through to final delivery, our quality and safety management procedures for copier and printer transport consider your unique industry and freight requirements, so you can feel at ease your expensive assets are in good hands.

Certified mining sector transportation you can trust

Macknsons' sensitive freight specialists adhere to our stringent quality management system and certifications, enabling us to safely deliver and place in-situ, equipment within working mine sites throughout WA. Our end to end freight solutions also allow us to decommission and scrap your devices, achieving 100% compliance with site protocols. In everything we do, we are committed to taking all practical steps to support a people culture that inspires leadership and integrity, and recognition of safety first. Whether on site, or at corporate headquarters, we maintain our core value 'making it happen, safely,' keeping risk assessment embedded in every part of our operation.

ADVANCED LIFTING TECHNOLOGY FOR COPIER AND PRINTER LOGISTICS

Equipped with specialised lifting equipment for commercial copier and printer relocations, we guarantee to get your technical assets commissioned before we take off.

Our trucks are fitted with hydraulic tail lifts rated to 2.5 tonne, ensuring even the heaviest copiers and printers can be loaded on board. We'll ensure your goods are fully protected and secured in transit and arrive in a safe manner.

Specialised equipment for copier and printer freight installation:

- Stair climbers
- Hand-held pallet jacks
- Genie lifts
- Heavy-duty flatbed trolleys
- Lifting straps
- Padded moving blankets
- Maxi rubber bands
- Moving ties
- Forklifts
- Cranes
